Calf Housing Option

If the buyer of the 2024 spring born bull and heifer calves chooses, they may leave their purchases at Huth Polled Herefords to be weaned and cared for 30 days at no cost. After the 30 days, if other arrangements are not made, there will be a \$5.00 per head per day care fee. We do recommend the buyer get insurance on their purchased if they leave the calf at Huth Polled Herefords.
